## General Comment

As a supporter of family farms within the New York's Chesapeake Bay watershed area, I urge the Environmental Protection Agency (EPA) to revise New York's Chesapeake Bay Total Maximum Daily Load (TMDL) allocation to a realistic and attainable standard and accept the NYS Department of Environmental Conservation's (NYS DEC) Watershed Implementation Plan (WIP) which is an aggressive and realistic plan to protect water quality in New York's portion of the Bay watershed.

Thank You

Jacqueline Mineo
